HAIR LOSS

Fluence Advance cyclical Therapy

Hair loss is not a disease but a condition where anagen (growth phase) is reduced and telogen (fall phase) is extended. Hair fall can be due to several reasons. But often we find that people exposed to the same conditions do not develop similar hair fall problems. So after years of research and clinical studies we came to an understanding that hair can be grown back if we can ensure four things:

1. Regulating DHT level in the blood
2. Adequate Supply of proper balanced hair nutrients to the hair roots.
3. Proper blood circulation in the scalp to carry the hair nutrients to the roots
4. Maintaining the general well being of one's health.

HAIR FACT

Cyclical therapy provides the necessary supplement for hair as well as our general wellness. Fluence Advance Cyclical Therapy constitutes balanced doses of vitamins, minerals and antioxidants etc that is formulated and prescribed in a way that no ingredients interfere with each other.

For example, excess vitamin A, E, Omega 3, causes hair loss. Iron and Calcium if used on the same day, interacts with each other and reduce efficiency by 40%.

In addition to that it constitutes of topical vasodilator and Low Level Laser that improves the blood circulation, reduces toxicity in the capillaries around the hair roots enabling proper transportation of the nutrients to the hair roots.

Fluence Advance Cyclical Therapy ensures to reverse the condition where your hair follicles are still existent. If you have more hair in the telogen phase your hair fall will initially aggravate but do not worry this therapy will help to replace your fallen hair. Research shows that significant visible results are witnessed within 2-4 months of treatment but new hairs keep on sprouting in the bald area till 18-24 months. So the therapy is usually recommended till 24 months.

CAUSES OF HAIR LOSS

(other than Androgenetic Alopecia)

INTERNAL factors

Iron deficiency

Calcium deficiency

Zinc deficiency

Vit. A,C,E,D deficiency

Obesity,
Insulin resistance

Thyroid Imbalance

Metabolic disorders,
Gout, PCOS,

Seborrhoeic scalp

Prolonged illness,
Surgery,

Prolonged medication

EXTERNAL factors

Smoking &
Passive Smoking

Stress

Alcohol

Lack of sleep

Crash dieting, fad diets,
High Protein diet

Exposure to excess
heat or cold

Dryness, poor
fluid intake

Poor Scalp hygiene

Dust, pollution, fumes

Endocrine disrupting
chemicals

BENEFITS OF

Fluence Advance cyclical Therapy

1. PROGRAM COVERS ALL THE BODY REQUIREMENT of essential nutrients and vitamins for good health, without any overdose. No other vitamins or supplements are required to be taken for wellness.
2. VITAMINS CAN CONTINUE WITH any other treatment, they do not interact with other medicines.
3. THE ANTIOXIDANTS used help to fight effects of stress and neutralize toxins in the body.
4. WAKING UP FRESH IN THE MORNING, feel energetic, do not get tired easily, have better stamina to do the day's work.
5. SMALL JOINT PAINS, aches, body stiffness seem to disappear and you can perform better.
6. IMPROVEMENT IN SKIN TEXTURE while using vitamins for the hair.
7. THE MICRO NUTRIENT BALANCE WHEN COMBINED with Low Light Laser Therapy rejuvenates natural stem cells in the scalp to create new growing hair roots. Patients get 30% or more hair without a transplant.
